

✓ AED

Learn how to use an Automated External Defibrillator (AED) to respond during cardiac arrest, extending the opportunity for successful resuscitation.

- ✓ Recognize sudden cardiac arrest and call for help
- ✓ Work closely with someone performing CPR
- ✓ Provide defibrillation with AED until help arrives

✓ CPR

Learn how to administer CPR (Cardiopulmonary Resuscitation) – an emergency lifesaving procedure performed when the heart stops beating.

- ✓ Perform initial protocols and check for breathing
- ✓ Send someone for help and ask them to call 911
- ✓ Perform compressions with proper technique

✓ FIRE SUPPRESSION

Learn general principles of fire extinguisher use and the hazards involved with incipient stage fire suppression using the PASS system.

- ✓ Understand basic principles of fire extinguisher use
- ✓ Experience an incipient stage workplace fire scenario
- ✓ Extinguish different types of common workplace fires

✓ VIRUS VISION (COMING SOON)

Learn how to prevent the transmission of germs in the workplace through proper infection prevention protocols.

- ✓ Visualize transmission of germs via air and surfaces
- ✓ Recognize potential sources of infection transmission vectors
- ✓ Keep productivity losses low by preventing infections

PEOPLE LEARN BY DOING.

Virtual environments provide a safe, immersive and engaging experience where students learn behavior-based safety.
